

ECOGRID RESORT | Investor Meeting Brief

SmartGrid Energy Management System – June 2026

SECTION 1: Model Comparison

	MODEL 1 – Direct Sale	MODEL 2 – Financed
Who pays CAPEX?	Client	SmartGrid
CAPEX	5,700,000 EUR	5,700,000 EUR
SmartGrid income	EPC margin 15% = 855,000 EUR (one-time)	Revenue share 60% = 300,000 EUR/yr
Recurring	SaaS 5k + Maint 10k = 15,000 EUR/yr	SaaS 5k – Maint 10k = net –5k/yr
Contract	Perpetual	15 years
Capital at risk	ZERO	5,700,000 EUR
XL Payback M2	N/A	16.4 yrs — EXCEEDS CONTRACT
Recommendation	PREFERRED for L/XL sites	Only viable for M sites (savings > 70k)

SECTION 2: Year 1 OPEX

SECTION 3: Deal Scenario & Key Talking Points

Item	Annual EUR	855,000 EUR EPC/site		1.02 sites = Yr1 OPEX		Breakeven: Month 6*		• Conservative savings floor: 500,000 EUR/yr for XL sites (independently verifiable) • Model 1 preferred for L/XL: 855k EPC per deal, zero capital risk, client payback 11.75 yrs • Model 2 reserved for M sites: viable when demonstrated savings exceed 70,000 EUR/yr • WARNING Model 2 XL: At 500k savings + 60% share, payback = 16.4 yrs, exceeds 15-yr contract → Net loss of 420,000 EUR at contract end
Shareholders (5 × 5k/mo)	300,000							
Staff (3 × 3k/mo)	108,000							
Office	24,000	Month	Sites	Revenue EUR	Cumulative EUR			
Software licenses	250,000	4	1	855,000	−163,000			
Marketing (10 mo × 10k)	100,000	8	1	855,000	+256,000 ✓ BREAKEVEN			
Travel	5,000	12	1	855,000	+599,000			
Legal	30,000	14	2	1,710,000	+2,061,000			
O&M; (1 site)	10,000	18	2	1,710,000	+3,117,000			
Debt service (M2 only)	323,000	22	2	1,710,000	+4,165,000			
Leasing	60,000	*Breakeven Month 6 assuming deal closes Month 4						
* Debt service applies only under Model 2 financing								

Model 1: Year 1 Revenue Breakdown

Model 2 XL: 15-Year Revenue vs Investment

Cumulative P&L Comparison (Single XL Site)

Revenue Scenarios: 5/10/15/20 Year Outlook

KEY INSIGHT: Model 2 XL becomes cash-flow positive only after Year 16 (post-contract). At 500k EUR conservative savings, the 15-year contract period ends with a net loss of 420,000 EUR. Model 2 is viable for M-size sites or if savings can be demonstrated above 580,000 EUR/yr. Post-contract (Year 16+): SmartGrid owns the asset and earns full savings without revenue sharing.
